September 26 – Council Business Meeting

Sharon Road Vehicle Accidents
Staff Resource: Doreen Szymanski, CDOT, 704-336-7527, dszymanski@charlottenc.gov

Mr. Duncan Sinclair appeared before City Council on September 26 expressing concerns about vehicle accidents in the 5300 block of Sharon Road. Preliminary investigation by the CDOT staff found some chevrons (arrow signs) missing. These signs will be reinstalled. In addition, staff plans to extend lane and center lines through the curve and install raised, reflective pavement markers every 20 ft. in the curve center line.

Staff is investigating the possible use of a caution light that will mount atop the existing curve warning/25 mph advisory speed sign prior to the curve. Staff expects a decision within two weeks. Mr. Sinclair has been made aware of the CDOT's plan, and will be sent a copy of this correspondence.
