Field Work Update

Wastewater
Pipe Replacement Update

MARCH 2021

CHARLOTTE WATER

Little Hope Creek Wastewater Improvement Project

Charlotte Water is continuing field investigation work in your area for an important wastewater improvement project that will enhance the future wastewater system in the community.

On Friday, March 5, project team members including Charlotte Water, Black & Veatch and Park Construction, will be walking the alignment of the existing and proposed wastewater system. Residents can expect to see team members on or near your property as they visually inspect the area. No field work will be conducted during this walk. The team members should be wearing safety vests and can be identified by company business cards. Although they may need access to your property, they will not need to enter your residence.

Please note, schedules are subject to change due to weather and other conditions. If weather keeps crews from walking the alignment on March 5, they will return the following week.

For more information on this project, please visit the project website at **www.charlottewater.org** (click on "projects") or contact Charlotte Water project manager Stephen Scott, at **stephen.scott@charlottenc.gov** or 980-219-9488.
