- Collected feedback and perspectives to uncover barriers to redevelopment (perceived and actual)
- Identified potential opportunities for redevelopment
Achievable rents are too low to support new construction w/o some type of public support
- Infrastructure needs
- Lack of financially viable plan and no consensus around a path forward
- Destination retail or large office space not viable today or in foreseeable future

• City controls land
- Central location with short commute to Uptown
- Local magnet schools have strong reputation:
  – K-8 partial magnet / language immersion school on site is a big asset
- Diverse and entrepreneurial residents
- Stable and strengthening surrounding communities
- Growing momentum in market and improving perceptions

Public private partnership is required
- City control of land is a major asset

K-8 partial magnet / language immersion school on site is a big asset

Attractive location for residential (including senior housing) at multiple price points

Potential for neighborhood-scale commercial uses, but will likely follow residential

Transit, open space, trails, and civic and cultural facilities can serve as a catalyst for redevelopment, but all require further due diligence to assess funding/financing options, financial return, programming and sizing, etc.
