Construction is Coming To Your Area Soon

The BriarCreek
Sewer System Improvement Project

Briar Creek Sewer Improvement Project Construction is Coming To Your Area Soon

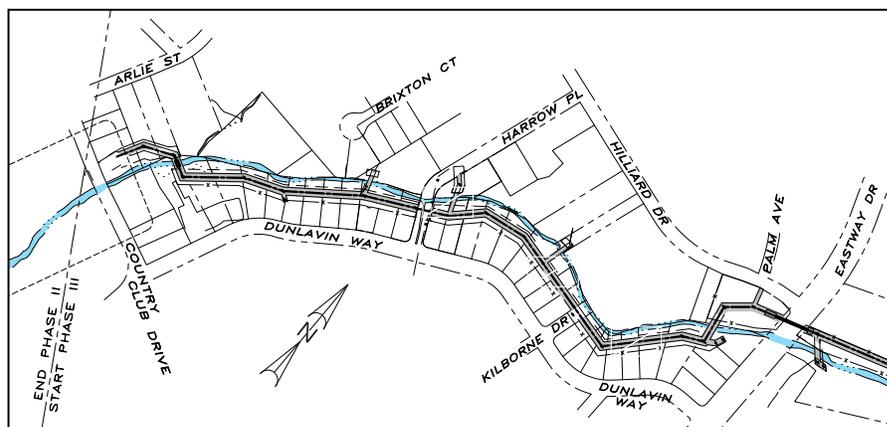

WHAT: Contractors for Charlotte Water will begin pipeline construction in your area.

WHEN: Beginning in August.

WHERE: Construction easements along Briar Creek from Country Club Drive and Dunlavin Way to Hilliard Drive at Eastway Drive (see map).

WHAT TO EXPECT: Activities will include:

- **Field office set up** – A temporary field office trailer has been set up at the staging area on the corner of Hilliard Drive and Eastway Drive.
- **Pipe delivery and storage** – Pipe is delivered and stored within the construction easements along the creek.
- **Establishing a safe work zone** – Fencing is already in place and pipe will be stabilized to prevent it from moving.
- **Trench digging**
- **Placing pipe and backfilling**
- **Underground rock blasting** (if required) to install the pipe. Residents may hear a warning horn just prior to the blast. The area will be monitored with seismographs to gauge earth vibration levels as required. Blasting is a standard construction procedure and all safety precautions will be taken.
- **Construction traffic** along the creek, within the easements.

NEXT STEPS: Pipe installation is expected to take two to three months. Once pipe is installed near your property, you may continue to see construction traffic along the easements as pipe will be tested, manholes will be adjusted and temporary restoration will occur.

QUESTIONS: Please visit the project website at www.charlottewater.org (click on "construction projects") for updates on progress. If you have a question, please call Louise Dixon at 704-374-9300. If you would like to receive email updates about the project, please email your name and property address to briarcreeksewer@carolinapr.com. Please place "Briar Creek Email List" in the subject line.
