

How can we improve YOUR community? *Let's talk.*

Brown-Grier and Sandy Porter Road Projects

Whitehall/Ayrsley

CharlotteFuture.com/CNIP

A main goal of the City's Comprehensive Neighborhood Improvement Program (CNIP) is to make strategic investments in multi-neighborhood geographies and address community needs.

The Brown-Grier Road and Sandy Porter Road Complete Streets Projects were identified in the Whitehall/Ayrsley CNIP and planning is now underway.

Field surveys have been completed for both projects. The City's project team will schedule a public meeting this fall to begin discussing improvements to these roads. Improvements may include additional lanes, traffic signals, medians, curb and gutter, sidewalks and bicycle lanes.

City staff will notify you a few weeks in advance of the public meeting. We look forward to your attendance and input.
