

# 6<sup>th</sup> and Graham

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Charlotte-Mecklenburg Storm Water Services and consulting engineer HDR continue with the planning phase. The goals of the project are to reduce flooding and rehabilitate deteriorated storm drainage structures.

A sinkhole located under the sidewalk on 6th Street alongside Settlers Place (229 N. Church Street) has a temporary repair. This pipe is located in the upper portion of the watershed and will need to be replaced. Long term repairs will take into account any

downstream improvements. We are still evaluating the storm drainage system as a whole and identifying possible ways to improve it.

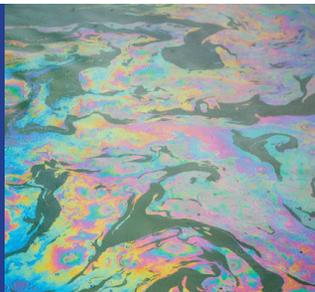

For more information about this project, please visit our website at [stormwater.charmeck.org](http://stormwater.charmeck.org). Click on **Storm Water Projects** dropdown menu in the green bar, then **Active Projects** and **6th and Graham**.

If you have questions, please contact Project Manager Greg Cole at 704-336-4824 or [gcole@charlottenc.gov](mailto:gcole@charlottenc.gov).
