

March 2016

Project Status

Charlotte-Mecklenburg Storm Water Services has approved additional analysis to evaluate alternative solutions. As part of this process, closed circuit television cameras will be used to verify pipe system condition, and geotechnical investigation will be performed. Residents should expect to see trucks with cameras in the project area.

Investing in Infrastructure

Charlotte has an aging public storm drainage system, much of which is past its useful life. The City repairs, replaces and installs new storm drainage infrastructure when it deteriorates or cannot handle increases in stormwater. Investing in infrastructure protects public safety, guards private property, improves water quality and enhances quality of life.

The 6th and Graham Storm Drainage Improvement Project goal is to reduce flooding of streets and structures throughout the neighborhood.
