

# Alanhurst/Cherrycrest

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident:

Charlotte-Mecklenburg Storm Water Services has completed their review of the preliminary design plans. The project team will be working with consulting engineers W.K. Dickson and Associates to prepare the easement plats for the start of the real estate phase. Easements are needed for the City to perform construction activities outside of the right-of-way. All property owners will be contacted to set up a short meeting to review the easements needed for construction and to discuss what will happen during construction.

Storm Water Services is currently on schedule as it proceeds with the design phase of the project.

Next Steps:

- Start easement documents
- Obtain construction permits from federal, state and local agencies

- Finalize design plans
- Begin construction

As a property owner, if you would like to provide input regarding the project, please feel free to fill out a survey form on the project webpage. Your input is appreciated.

For more information about this project, please visit our website at [stormwater.charmeck.org](http://stormwater.charmeck.org) and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Alanhurst/Cherrycrest**.

If you have any questions, please contact Project Manager Danée McGee at [dmcgee@charlottenc.gov](mailto:dmcgee@charlottenc.gov) or 704-336-4102.

November 2014

## Shade Your Stream

Property along creeks and lakes should be planted with native trees and shrubs.

### ROOTS

Roots anchor the soil, reduce flood damage and take up excess fertilizers.

### COOL TEMPERATURES

Shade keeps the water cool, allowing fish and aquatic life to thrive.

### WILDLIFE HABITAT

Shaded streams provide valuable habitat for wildlife.

For more information about stream buffers, visit [StormWater.CharMeck.org](http://StormWater.CharMeck.org)
