

Blenhein

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident:

Charlotte-Mecklenburg Storm Water Services continues to work on the Blenheim Storm Drainage Improvement Project. The Project goals are to update infrastructure, reduce flooding of structures and streets, provide emergency access, reduce erosion and increase stream capacity.

The project is currently in the Real Estate Phase. During the this phase the City negotiates with property owners to obtain the easements necessary to construct the improvements. The City has hired THC, Inc. to help with this task.

An easement is a right to use land owned by another party for a specific purpose. Easements provide Storm Water Services with permission from property owners to come onto their property and repair drainage problems and perform on-going maintenance.

For more information about this project, please visit our website stormwater.charmeck.org and click on **Storm Water Projects, Active Projects, then Blenheim.**

If you have any questions about this project, please contact the Project Manager, Greg Cole at gcole@charlottenc.gov or 704-336-4824.

**Water Pollution...
Be part of the
solution!**

The Water Watchers app makes it easier than ever for citizens to report pollution on the go

For more information visit StormWater.CharMeck.org

The advertisement features a smartphone displaying the "Water Watchers" app interface. The app screen shows the Charlotte-Mecklenburg Storm Water Services logo and several menu options: "Report Water Pollution", "Submit Stream Clean-up Report", "Submit Monitoring Report", "Facebook", and "Weather". At the bottom of the app screen are icons for "Main", "Report Issue", "My Reports", and "Contact Us". The background of the advertisement shows a close-up of a pipe discharging water into a stream.
