

UNDER CONSTRUCTION

BRENTWOOD PLACE

STORM DRAINAGE IMPROVEMENT PROJECT

Contractor is ready to pour concrete for a drainage structure on Wilkinson Boulevard.

Dear Resident:

Construction continues on the Brentwood Place Phase I Storm Drainage Improvement Project. The project team continues to work with Norfolk Southern Railroad to determine the best solution for installation of the two drainage pipes beneath the railroad. Once a solution has been determined, work will commence within the railroad right-of-way.

Construction continues for Phase II. The West Boulevard culvert installation has been completed. Sanitary sewer installation continues near Bethel Road, and water line and sanitary sewer improvements associated with the storm drainage project are underway along Camp Greene Street, just north of Wilkinson Boulevard.

Partial and full road closures will be required for the installation of storm drainage improvements along Camp Greene Street. Temporary construction traffic signage will direct motorists around the construction work zones. Detour signage will be provided during full road closures.

For more information about this project, please visit our website to view project updates at: stormwater.charmeck.org. Click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Brentwood Place**.

If you have any questions, please contact one of the project team members:

On-site Construction Inspector:

Monty Bisette: 704-400-7788
Email: mbisette@charlottenc.gov

Project Manager:

Tom Purvis: 704-336-3660
Email: tpurvis@charlottenc.gov

Construction Supervisor:

Gary Stansbury: 704-336-2667
E-mail: gstansbury@charlottenc.gov

A construction inspector will be on site daily to address any questions or concerns. Please note efforts are taken to minimize disruptions.
