

Brentwood Place

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

October 2011

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and consulting engineer, The Isaacs Group, are continuing with the design phase of the Brentwood Place Storm Drainage Improvement Project. The consultant is currently working on addressing comments on the preliminary plans for this project. A public meeting will be held in the near future to start the real estate phase of the project.

For more information about this project, please visit our website <http://stormwater.charmeck.org> and click on **Storm Water Projects** dropdown menu in the green bar, then **Active Projects** and **Brentwood Place**.

If you have any questions about this project, please contact Project Manager Monica Kruckow at 704-336-4722 or email mkruckow@charlottenc.

A graphic for a flood warning. It features a man's face looking serious, a lightning bolt in a dark sky, and a red triangular "FLOOD WARNING" sign. The text "Scary how quickly the water rose." is written in a white circle, with a quote from Luke (East Charlotte) below it. A red banner at the bottom says "RISK IS REAL. BE PREPARED." and includes the website "stormwater.charmeck.org".

Scary how quickly the water rose.
- Luke (East Charlotte)

RISK IS REAL. BE PREPARED.

Are you prepared for a flood?

Anywhere it rains, it can flood. And floods are Charlotte-Mecklenburg's most common and costly natural disaster.

In Charlotte-Mecklenburg, flood risks are especially high in the summer and early fall. Thunderstorms, tropical storms and hurricanes can cause heavy rain and flash flooding.

During a Flood:

- Pay attention to flood watches and warnings.
- **Turn around, don't drown!** Don't walk or drive through floodwater.
- 80% of flood deaths happen in vehicles.
- Be prepared to move to higher ground.
