

# Cedars East Storm Drainage Improvement Project

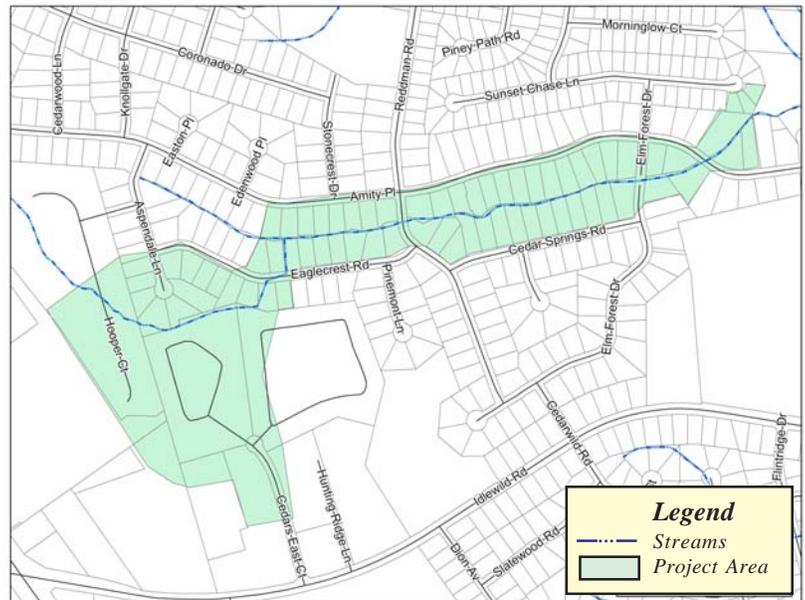

February 25, 2010

Dear Resident:

Charlotte-Mecklenburg Storm Water Services needs your input. Your neighborhood has been identified as a possible location for storm water improvements. The project area covers approximately 48 acres. The Cedars East Minor Storm Drainage Improvement Project is located between the Idlewild apartments at the intersection of Idlewild Drive and Cedars East Court, just east of Independence Boulevard and the culvert under Amity Place. The project will involve improvements to address structure and road flooding in the area.

This project is in the very early planning stages and we would like your input to help us identify problems with the culverts, storm drainage systems and creeks in your area. Please complete the enclosed questionnaire, even if you have not experienced problems, and return by March 12, 2010. Postage is prepaid.

We will use customer service requests (311 calls), your questionnaire responses and field review analysis to refine the project limits. After this has been done a public meeting will be scheduled to discuss the problem areas and improvements. Thank you for your input and we look forward to working with you.

If you have any other questions or concerns related to the project, please contact Project Manager Matthew Anderson at 704-336-7923 or [manderson@charlottenc.gov](mailto:manderson@charlottenc.gov).
