

Cedars East

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

July 2011

Dear Resident:

Charlotte-Mecklenburg Storm Water Services and engineering consultant, STV/Ralph Whitehead Associates, are progressing with the planning phase of the Cedars East Storm Drainage Improvement Project. The project area includes the Arcadian Village Apartments (formerly Idlewild Apartments) at Idlewild Drive and Cedars East Court, from just east of Independence Boulevard to the culvert under Amity Place.

We are studying the potential for related project improvements. As a result, a more detailed survey is being made on the downstream system.

Representatives from Project Team may need to enter your property to collect additional survey data. While State law

authorizes this access to private property, no buildings or structures will be entered or disturbed. The survey work is scheduled to begin mid-July. All field staff is able to provide you with appropriate identification.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Cedars East**.

If you have any questions about this project, please contact Project Manager Matthew Anderson at 704-336-7923 or manderson@charlottenc.gov.
