

Cedars East

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

November 2011

Dear Resident:

Charlotte-Mecklenburg Storm Water Services and engineering consultant, STV/Ralph Whitehead Associates, are progressing with the planning phase of the Cedars East Storm Drainage Improvement Project. The project area is located between the Arcadian Village Apartments (formerly Idlewild Apartments) at the intersection of Idlewild Drive and Cedars East Court, just east of Independence Boulevard and the culvert under Amity Place.

We are studying the potential for related project improvements. A more detailed survey has been obtained on the downstream system. The majority of the survey is complete, but some additional survey is needed.

Representatives from Project Team may need to enter your property to collect additional survey data. While State law authorizes this access to private property, no buildings

or structures will be entered or disturbed. All field staff is able to provide you with appropriate identification.

Options are being studied for suitability. When a chosen remedy to address the flooding issues in the watershed is selected, we will share the results with the neighborhood for feedback.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Cedars East**.

If you have any questions about this project, please contact Project Manager Matthew Anderson at 704-336-7923 or manderson@charlottenc.gov.
