

Cedars East

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

November 2012

Dear Resident:

Charlotte-Mecklenburg Storm Water Services and engineering consultant, STV/Ralph Whitehead Associates, are progressing with the planning phase of the Cedars East Storm Drainage Improvement Project. The project area is located between the Arcadian Village Apartments (formerly Idlewild Apartments) at the intersection of Idlewild Drive and Cedars East Court, just east of Independence Boulevard and the culvert under Amity Place.

We are studying the potential for related project improvements. An alternate to address the flooding for the project has been submitted and is being

reviewed by the City. Once that alternate is reviewed, those proposed improvements will be shared with the neighborhood for feedback.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Cedars East**.

If you have any questions about this project, please contact Project Manager Matthew Anderson at 704-336-7923 or manderson@charlottenc.gov.

Maintain Your Drain

Clogged storm drains can cause street flooding.

BEFORE it rains, remove trash, leaves and other debris from storm drains near your home.
