

Cedars East

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

November 2013

Dear Resident:

Charlotte-Mecklenburg Storm Water Services and engineering consultant, STV/Ralph Whitehead Associates, are in the final stages of negotiation for design services for the Cedars East Storm Drainage Improvement Project. The project area is located between the Arcadian Village Apartments (formerly Idlewild Apartments) at the intersection of Idlewild Drive and Cedars East Court, just east of Independence Boulevard and the culvert under Amity Place.

The consultant will be given a notice to proceed to produce construction design plans and specifications for review to the City of Charlotte and the various

agencies. Notice to proceed for design services is expected to be issued in December.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** dropdown menu in the green bar, then Active Projects and **Cedars East**.

If you have any questions, please contact Project Manager Matthew Anderson at 704-336-7923 or manderson@charlottenc.gov.

Shade Your Stream

Property along creeks and lakes should be planted with native trees and shrubs.

ROOTS

Roots anchor the soil, reduce flood damage and take up excess fertilizers.

COOL TEMPERATURES

Shade keeps the water cool, allowing fish and aquatic life to thrive.

WILDLIFE HABITAT

Shaded streams provide valuable habitat for wildlife.

For more information about stream buffers, visit <http://stormwater.charmeck.org>
