

Chandworth

storm drainage improvement project

your storm water fees at work

October 2014

Dear Resident:

Charlotte-Mecklenburg Storm Water Services continues to coordinate with several utility companies to resolve conflicts where utility lines cross the project. An adjustment to the alignment may be required. Several interior videos have been completed investigating pipe condition. The Project Team will consider leaving in place those pipes found to be in acceptable condition.

For more information about this project, please visit our website stormwater.charmeck.org and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Sunnyvale**.

If you have any questions, please contact Project Manager Jackie Bray at jbray@charlottenc.gov or 704-336-6770.

HURRICANE SEASON

JUNE 1 - NOVEMBER 30, 2014

STORMY
WEATHER
AHEAD

2014 forecast:

- 11 named tropical storms
- 3 hurricanes

75% of Charlotte's flooding happens during the months of hurricane season. Whether it's heavy rain from a named storm or an unexpected cloudburst, Charlotte's flood chances increase dramatically in the summer.
