

Chatham

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and consulting engineer, Kimley Horn and Associates, continue with the planning phase for the Chatham neighborhood and watershed.

The project team is looking into possible system upgrades to address structure and street flooding in the project area. Potential improvements are being studied, with one alternative submitted by the consultant to City staff for review. When a chosen remedy to address the flooding issues in the watershed is selected, we will share the results with the neighborhood for feedback.

For more information about this project, please visit our website at stormwater.charmeck.org and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Chatham**.

If you have any questions, please contact Project Manager Matthew Anderson at 704-336-7923 or manderson@charlottenc.gov.
