

Chatham

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

October 2012

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and engineering consultant, Kimley Horn and Associates, have begun initial studies of problems in the Chatham neighborhood. Representatives from the surveyor, James Mauney & Associates, continue to gather data in the watershed.

The project team will review customer complaints and questionnaire responses, then analyze the existing storm drainage infrastructure to determine problem areas. These results will be shared with the neighborhood for feedback.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Chatham**.

If you have any questions, please contact Project Manager Matthew Anderson at 704-336-7923 or manderson@charlottenc.gov.

Charlotte, North Carolina 28202

Clogged storm drains can cause street flooding.

BEFORE it rains, remove trash, leaves and other debris from storm drains near your home.
