

# Cherokee/Scotland

storm drainage improvement project

your storm water fees at work

February 2010

Dear Resident:

Charlotte-Mecklenburg Storm Water Services, along with consulting engineers, Dewberry & Davis, Inc., continue to work in the design phase of the Cherokee/Scotland Storm Drainage Improvement Project. When the design plans at 70% complete they will be presented at a public meeting. After acceptance of the plan, the real estate acquisition phase will begin.

To develop the most cost-effective solution for the entire project area several locations of the project are undergoing changes in design.

Please contact the project manager if you would like to discuss any flooding issues and/or concerns.

You may also view project updates and exhibits on the web at: <http://stormwater.charmeck.org> (Click on **Storm Water Projects, Storm Water Projects** again and then **Cherokee/Scotland**).

If you have any questions, please contact Project Manager, Troy Eisenberger at 704-336-4835 or [teisenberger@charlottenc.gov](mailto:teisenberger@charlottenc.gov).
