

Cherokee/Scotland

storm drainage improvement project

your storm water fees at work

February 2013

Dear Resident:

Charlotte-Mecklenburg Storm Water Services is in the final stages of the real estate phase for the Cherokee/Scotland Storm Drainage Improvement Project. Final design plans have been received and the majority of the easements have been obtained.

Once all easements are acquired, the bid phase will begin. During this phase, competitive bids are taken from responsible contractors to perform the work. After City Council approval, the City awards the construction contract to the lowest responsible bidder.

For more information about this project, please visit our website at: <http://stormwater.charmeck.org> Click on **Storm Water Projects** dropdown menu in the green bar, then **Active Projects** and **Cherokee/Scotland**.

If you have any questions, please contact Project Manager Jackie Bray at jbray@charlottenc.gov or 704-336-6770.

It is that time of year when a chill fills the air and snow begins to fall.

Sometimes, instead of snow, we get ICE. Next time the weather turns bad and your sidewalk is slick, spread sand to get a grip on that slippery walk.

If bad weather strikes the area causing limbs and brush to fall, residents are encouraged to prepare debris to normal collection guidelines (limbs no longer than 5 feet in length and no wider than 4 inches in diameter). The storm debris should be taken to curbside. Do not place debris in storm drains, gutters or on creek banks.
