

Coulwood

stream restoration project

YOUR STORM WATER FEES AT WORK

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and City Real Estate representatives continue to negotiate the required easements for the stream restoration project with Colonial Pipeline to address security and operational concerns. Once easements are acquired, design plans will be finalized.

The project goal is to improve water and environmental quality by restoring the primary stream from the Colonial Pipeline pond to Gum Branch to a more natural and functional state. The project also includes improvements to the Colonial Pipeline pond to maximize the water quality benefits of the project.

For more information about Charlotte-Mecklenburg Storm Water Services and stream restoration, please visit our website at stormwater.charmeck.org.

If you have any questions about this project, please contact Project Manager Matthew Anderson at manderson@charlottenc.gov or 704-336-7923.

October 2014

HURRICANE SEASON

JUNE 1 - NOVEMBER 30, 2014

STORMY
WEATHER
AHEAD

2014 forecast:

- 11 named tropical storms
- 3 hurricanes

75% of Charlotte's flooding happens during the months of hurricane season. Whether it's heavy rain from a named storm or an unexpected cloudburst, Charlotte's flood chances increase dramatically in the summer.
