

Gaynor

storm drainage improvement project

your storm water fees at work

January 2012

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and consulting engineer Armstrong Glen are continuing with the design phase of the Gaynor Storm Drainage Improvement Project. The consultant is currently working on addressing comments on the preliminary plans for this project. A public meeting will be held soon to start the real estate phase of the project.

click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Gaynor**.

Within the last year, Storm Water fees...

Funded 57 Capital Improvement Projects and protected the water quality of more than 3,000 miles of streams and shoreline.

The Upper Stoney Creek stream restoration project will improve water quality, enhance forested riparian areas and protect aquatic habitat.

Fees included funding of the Upper Stoney Creek Stream Restoration near Mallard Creek Church Road. In addition to reconstructing open channel areas, boulders and logs were added to reduce bank erosion during large storm events.
