storm drainage improvement project

your storm water fees at work

October 2010

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and consulting engineer, Armstrong Glen, continue to move forward with the planning phase of the Gaynor Storm Drainage Improvement Project. The goal is to reduce flooding of streets and structures by improving the storm drainage infrastructure within the project area.

During the planning phase of the project, the consultant investigates reported concerns and analyzes the storm drainage system within the project area to determine where storm water issues exist. Several improvement alternatives are then developed and evaluated for each issue.

For more information about this project, please visit our website <http://stormwater.charmeck.org> and click on **Storm Water Projects, Storm Water Projects** again and then **Gaynor**.

If you have any questions about this project, please contact the Project Manager, Corky Botkin at [cbotkin@charlottenc.gov](mailto:cbotkin@charlottenc.gov) or 704-432-5536.

**Anywhere it rains,  
it can flood.**

Pay attention to flood watches and warnings.

Be ready to move to higher ground.

Buy flood insurance.

Don't walk or drive through flood water.

**The risk is real.  
Be prepared.**
