storm drainage improvement project

YOUR STORM WATER FEES AT WORK

September 2013

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and consulting engineer, Armstrong Glen, are in the final stages of acquiring construction easements and required permits for the Gaynor Storm Drainage Improvement Project. The design plans are being reviewed to ensure the drawings are complete.

If you have any questions about this project, please contact Project Manager Jackie Bray at 704-336-6770 or [jbray@charlottenc.gov](mailto:jbray@charlottenc.gov) or.

For more information about this project, please visit our website <http://stormwater.charmeck.org> and click on *Storm Water Projects, Active Projects*, then *Gaynor*.

When you clean your car, don't forget this detail:

Soap will clean your car, but it won't clean our streams.

Don't wash your car on your driveway or in the street. Soap suds flow to the nearest storm drain, then directly into the nearest creek. That could kill fish and other aquatic life.

Instead, park your car on your lawn to wash it. Or, better yet, take your car to a professional car wash where the water is cleaned. You'll have a clean car and all of us will have clean streams.

For more information visit [stormwater.charmeck.org](http://stormwater.charmeck.org)
