

Hampton Avenue

storm drainage improvement project

your storm water fees at work

Dear Resident:

The Project Team is reviewing the preliminary design plans submitted by Baker Engineering. When the review is complete, Baker Engineering will work with their sub-consultant to prepare preliminary plats for City Real Estate to review. Once the plats are finalized then easement acquisition will occur. There will be a public meeting in late spring or early summer of 2014 to discuss easement acquisition with property owners. Over the next several months, the Project Team will begin working with State and Federal agencies to obtain the necessary permits for water quality.

For more information, please visit our website: <http://stormwater.charmeck.org>. Click on the **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Hampton Avenue**.

If you have any questions, please contact Project Manager Danee McGee at 704-336-4102 or dmcgee@charlottenc.gov.

November 2013

Shade Your Stream

Property along creeks and lakes should be planted with native trees and shrubs.

For more information about stream buffers, visit <http://stormwater.charmeck.org>
