

Hill Street

storm drainage improvement project

your storm water fees at work

Dear Resident:

Charlotte-Mecklenburg Storm Water Services is completing the review of a preferred design alternative. The planning report will be completed and the chosen alternative will be presented at a public meeting where an open discussion regarding the impacts will take place. Public meetings are important because property owners will hear how their flooding issues will be addressed and the project schedule will be discussed. Meeting details will be mailed to residents approximately two weeks prior to the meeting.

For more information about this project, visit our website: stormwater.charmeck.org. Click on the **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Hill Street**.

If you have any questions, please contact Project Manager Danée McGee at 704-336-4102 or dmcgee@charlottenc.gov.

August 2014

HURRICANE SEASON

JUNE 1 - NOVEMBER 30, 2014

STORMY
WEATHER
AHEAD

2014 forecast:

- 11 named tropical storms
- 3 hurricanes

75% of Charlotte's flooding happens during the months of hurricane season. Whether it's heavy rain from a named storm or an unexpected cloudburst, Charlotte's flood chances increase dramatically in the summer.
