

November 2015

**Project Status:**

Charlotte-Mecklenburg Storm Water Services and consulting engineer Armstrong Glen, P.C., continue to acquire easement needed to build the improvements. Once easement acquisition is complete, we will finalize the construction drawings and then begin the bid phase.

**Next Steps:**

During the bid phase, the final design plans will be circulated to qualified contractors for a competitive bidding process. After City Council approval, the construction contract is awarded to the lowest responsible bidder.

## Kenilworth/Romany Storm Drainage Improvement Project

Kenilworth/Romany Storm Drainage Improvement Project

Engineering & Property Management  
Storm Water Services Division  
600 East Fourth Street  
Charlotte, North Carolina 28202

**Investing in Infrastructure**

The City replaces pipes, storm drains and other structures when they deteriorate or become too small to handle increases in stormwater. Investing in infrastructure protects public safety, guards private property, improves water quality and enhances quality of life.

The Kenilworth/Romany Storm Drainage Improvement Project goal is to reduce flooding of streets and structures throughout the neighborhood.
