

Kenilworth/Romany

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

October 2012

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and engineering consultant, Armstrong Glen, P.C., are in the planning phase of the Kenilworth/Romany Storm Drainage Improvement Project. The project boundaries are East Boulevard to the southwest, Euclid Avenue to the northwest, Berkeley Avenue and East Morehead Street to the northeast and Upper Little Sugar Creek to the southeast. The project goal is to reduce street and structure flooding by improving storm drainage infrastructure.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Kenilworth/Romany**.

This project has been transferred to Project Manager Chad Nussman. If you have any questions, please contact him at cnussman@charlottenc.gov or 704-336-5676.

The Project Team has been doing extensive pipe video work this month. We anticipate selecting the preferred improvement alternative for the project area in the next few months.

Maintain Your Drain

Clogged storm drains can cause street flooding.

BEFORE it rains, remove trash, leaves and other debris from storm drains near your home.
