

Lincoln Heights

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

June 2012

Dear Resident,

Charlotte-Mecklenburg Storm Water Services will be conducting a study of possible improvements to the storm drainage system in the Lincoln Heights project area. The project area boundaries are Interstate 85 to the north, Interstate 77 to the east, La Salle Street to the south, and Beatties Ford Road to the west.

Representatives from the Project Team may need to enter your property to collect survey data on the existing storm drainage system. While State law authorizes access to private property for this purpose, no buildings or structures will be entered or disturbed.

The survey work is scheduled to begin in July and will take several months to complete.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Lincoln Heights**.

If you have any questions, please contact Project Manager Steven McCraney at 704-432-0967 or smccraney@charlottenc.gov.
