

Lincoln Heights

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident,

Charlotte-Mecklenburg Storm Water Services continues to analyze the existing conditions of the storm drainage system within the Lincoln Heights Storm Drainage Improvement Project. This analysis will determine areas of storm water issues and/or concerns. A public meeting will be scheduled to present the storm drainage analysis results and solicit input from project area residents. Meeting details will be mailed to you two weeks prior to the meeting.

The goals of this project are to improve the storm drainage infrastructure and to reduce flooding of streets and structures in your neighborhood. The project area

boundaries are Interstate 85 to the north, Interstate 77 to the east, Lasalle Street to the south, and Beatties Ford Road to the west.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Lincoln Heights**.

If you have any questions, please contact Project Manager Steven McCraney at 704-432-0967 or smccraney@charlottenc.gov.

June 2013

Be a Water Watcher:
Call 311 to report misuse of storm drains or unusual creek conditions.

Join us on Facebook at www.facebook.com/waterwatchers.

CHARLOTTE

Engineering & Property Management
Storm Water Services Division
600 East Fourth Street
Charlotte, North Carolina 28202

Let's work together to protect
Charlotte's valuable water sources.

 **waterwatchers**

are Charlotte-Mecklenburg residents **just like you** who report instances of...

- Unusual creek conditions: *odd smells, color changes, dead fish or foam*
- Improper dumping of substances into storm drains: *grease, trash, paint or other pollution*
- Poorly stored chemicals, sewage overflows, erosion from construction sites or broken pipes

Keep our area waterways clean by calling 311 or
visiting stormwater.charmeck.org to report conditions.
