

Lincoln Heights

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

October 2012

Dear Resident,

Charlotte-Mecklenburg Storm Water Services is finalizing the survey work for the Lincoln Heights Storm Drainage Improvement Project, after which the existing drainage conditions will be evaluated. When that analysis is complete, a public meeting will be scheduled to present the findings and solicit input from residents and property owners. A notification with time and location will be mailed to you two weeks in advance of the meeting.

The project area boundaries are Interstate 85 to the north, Interstate 77 to the east, La Salle Street to the

south, and Beatties Ford Road to the west.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Lincoln Heights**.

If you have any questions, please contact Project Manager Steven McCraney at 704-432-0967 or smccraney@charlottenc.gov.

Maintain Your Drain

Clogged storm drains can cause street flooding.

BEFORE it rains, remove trash, leaves and other debris from storm drains near your home.
