

Lincoln Heights

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident,

Charlotte-Mecklenburg Storm Water Services has started the existing conditions analysis of the storm drainage system within the Lincoln Heights Storm Drainage Improvement Project area. The engineering consultant has changed to Armstrong Glen Engineering. They will be gathering additional limited survey information within the project area and submitting the existing conditions analysis for review.

project area boundaries are Interstate 85 to the north, Interstate 77 to the east, Lasalle Street to the south, and Beatties Ford Road to the west.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Lincoln Heights**.

The goals of this project are to improve the storm drainage infrastructure and to reduce flooding of streets and structures in your neighborhood. The

If you have any questions, please contact Project Manager Steven McCraney at 704-432-0967 or smccraney@charlottenc.gov.

October 2013

When you clean your car, don't forget this detail:

Soap will clean your car, but it won't clean our streams.

Don't wash your car on your driveway or in the street. Soap suds flow to the nearest storm drain, then directly into the nearest creek. That could kill fish and other aquatic life.

Instead, park your car on your lawn to wash it. Or, better yet, take your car to a professional car wash where the water is cleaned. You'll have a clean car and all of us will have clean streams.
