

Louise Avenue

storm drainage improvement project

your storm water fees at work

April 2013

Dear Resident:

Charlotte Mecklenburg Storm Water Services continues to work with Duke Energy to relocate utility poles in the Louise Avenue project area.

We are expecting the bid phase to restart this fall. During this phase, competitive bids are taken from responsible contractors to perform the work. After City Council approval, the City awards the construction contract to the lowest responsible bidder. Bid phase typically takes six months and construction for this project is estimated to take two years.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Louise**.

If you have any questions, please contact Project Manager Danée McGee at dmcgee@charlottenc.gov or 704-336-4102.

A photograph of a person's hands holding binoculars, looking through the lens at a small white cup containing a dead fish floating in water. The background is a blurred outdoor scene.

Be a Water Watcher:
Call 311 to report misuse of storm drains or unusual creek conditions.

Charlotte, North Carolina 28202

**Let's work together to protect
Charlotte's valuable water sources.**

 **waterwatchers**

are Charlotte-Mecklenburg residents **just like you** who report instances of...

- Unusual creek conditions: *odd smells, color changes, dead fish or foam*
- Improper dumping of substances into storm drains: *grease, trash, paint or other pollution*
- Poorly stored chemicals, sewage overflows, erosion from construction sites or broken pipes

Keep our area waterways clean by calling 311 or
visiting stormwater.charmeck.org to report conditions.
