

Louise Avenue

storm drainage improvement project

your storm water fees at work

August 2012

Dear Resident:

The project plans have been completed and the bid phase started in July 2012. This phase includes:

- Compiling contract documents for construction
- Awarding the construction bid
- Approving construction contract by City Council
- Holding pre-construction meetings
- Relocating utilities
- Giving notice to proceed for the contractor.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Louise**.

If you have any questions, please contact Project Manager Danée McGee at dmcgee@charlottenc.gov or 704-336-4102.

We expect these items to be complete and project construction to start in 2013, with completion in approximately two years.

Maintain Your Drain

Clogged storm drains can cause street flooding.

BEFORE it rains, remove trash, leaves and other debris from storm drains near your home.
