

Lyon Court

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

May 2013

Dear Resident,

Charlotte-Mecklenburg Storm Water Services continues to work on the design phase for the Lyon Court Storm Drainage Improvement Project. The construction plans are 70% complete. The project will reduce flooding and erosion in the approximately 300 acre project area.

For more information about this project, please visit <http://stormwater.charmeck.org> and click on *Storm Water Projects* drop down menu in the green bar, then *Active Projects and Lyon Court*.

If you have any questions, please contact Project Manager William Harris at wharris@charlottenc.gov or 704-353-1147.

An advertisement for "Be a Water Watcher". It features a close-up of a person's hands holding binoculars, looking through the lens at a stream where a dead fish is floating. The text reads: "Be a Water Watcher: Call 311 to report misuse of storm drains or unusual creek conditions." In the bottom right corner, it says "Join us on Facebook at www.facebook.com/waterwatchers." and includes the "waterwatchers" logo. A small "Charlotte-Mecklenburg STORM WATER Services" logo is in the bottom left corner.

Engineering & Property Management
Storm Water Services Division
600 East Fourth Street
Charlotte, North Carolina 28202

Let's work together to protect
Charlotte's valuable water sources.

 **waterwatchers**
are Charlotte-Mecklenburg residents just like you who report instances of...

- Unusual creek conditions: *odd smells, color changes, dead fish or foam*
- Improper dumping of substances into storm drains: *grease, trash, paint or other pollution*
- Poorly stored chemicals, sewage overflows, erosion from construction sites or broken pipes

Keep our area waterways clean by calling 311 or
visiting stormwater.charmeck.org to report conditions.
