

Lyon Court

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident,

Charlotte-Mecklenburg Storm Water Services will soon begin the real estate phase of the Lyon Court Storm Drainage Improvement Project. The project will reduce flooding and erosion in the approximately 300 acre project area.

During the real estate phase, we will hold a public meeting to discuss the designed improvements and initiate easement acquisitions. We expect to hold the public meeting within the next couple of months.

For more information about this project, please visit <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Lyon Court**.

If you have any questions, please contact Project Manager William Harris at wtharris@charlottenc.gov or 704-353-1147.

September 2013

When you clean your car, don't forget this detail:

Soap will clean your car, but it won't clean our streams.

Don't wash your car on your driveway or in the street. Soap suds flow to the nearest storm drain, then directly into the nearest creek. That could kill fish and other aquatic life.

Instead, park your car on your lawn to wash it. Or, better yet, take your car to a professional car wash where the water is cleaned. You'll have a clean car and all of us will have clean streams.
