

Marlwood/Waverly

storm drainage improvement project

your storm water fees at work

August 2013

Dear Resident:

Charlotte-Mecklenburg Storm Water Services is in the planning phase of the Marlwood/Waverly water quality pollution control project. The project boundaries are Marlwood Circle to the north and east, Timber Lake Drive to the west and Sherington Way to the south. The project goal is to preserve the water quality benefits of the pond.

City staff is using the survey data to analyze the function of the existing drainage system and to improve pond dams and existing street flooding.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Marlwood/Waverly**.

If you have any questions, please contact Project Manager Chad Nussman at 704-336-5676 or cnussman@charlottenc.gov.
