

McAlway/Churchill

storm drainage improvement project

your storm water fees at work

August 2010

Dear Resident:

Charlotte-Mecklenburg Storm Water Services and engineering consultant, PB Americas Inc., are in the planning phase of McAlway/Churchill Storm Drainage Improvement Project. The project goal is to improve storm drainage infrastructure, reducing street and structure flooding.

The consultant has analyzed the storm drainage system within your neighborhood to determine areas where there are storm water issues and/or concerns. The consultant is now developing several improvement alternatives that will be evaluated to determine the

best solution. Once this is complete, a public meeting will be held with the neighborhood.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on *Storm Water Projects*, *Storm Water Projects* again, and then *McAlway/Churchill*.

If you have any questions about this project, please contact Project Manager, Kate Labadorf at 704-336-3653 or klabadorf@charlottenc.gov.

**Anywhere it rains,
it can flood.**

Pay attention to flood watches and warnings.

Be ready to move to higher ground.

Buy flood insurance.

Don't walk or drive through flood water.

**The risk is real.
Be prepared.**
