

McAlway/Churchill

storm drainage improvement project

your storm water fees at work

January 2010

Dear Resident:

The planning-level surveying has been completed for the McAlway/Churchill Storm Drainage Improvement Project. Charlotte-Mecklenburg Storm Water Services and consulting engineers PB Americas are now evaluating the existing conditions within the project area. When analysis is complete a public meeting will be scheduled to present the findings and solicit input from project area residents. Meeting details will be sent to you by mail approximately two weeks in advance.

For more information, please view project updates and

exhibits on the web at: <http://stormwater.charmeck.org> (Click on **Storm Water Projects, Storm Water Projects** again and then **McAlway/Churchill**). *If you are new to the neighborhood and/or did not complete a questionnaire earlier, please visit our website to download the questionnaire to inform us of drainage problems in your area.*

If you have any questions about this project, please contact Project Manager Kate Labadorf at 704-336-3653 or email klabadorf@charlottenc.gov.

A graphic for the "Water Watcher" campaign. It shows a pair of hands holding a pair of glasses. The left lens shows a polluted stream with trash and debris, while the right lens shows a clean, clear stream. The text "Be A Water Watcher: Help Us See & Report Pollution!" is overlaid on the glasses. Below the glasses, it says "With more than 3,000 miles of streams, we need all the help we can get. Do your part: If you see debris, cloudy or colored water, dead fish, trash, litter... Call 311 and report the pollution."/>

**Be
A
Water Watcher: Help Us See & Report Pollution!**

With more than 3,000 miles of streams, we need all the help we can get.
Do your part: If you see debris, cloudy or colored water, dead fish, trash, litter...
Call 311 and report the pollution.
