

# McAlway/Churchill

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

July 2013

Dear Resident,

Charlotte-Mecklenburg Storm Water Services and engineering consultant, Parsons Brinckerhoff, Inc., continue with the real estate phase of the McAlway/Churchill Storm Drainage Improvement Project. During this phase the project team will be acquiring all permits and finalizing the construction documents.

Representatives from the City will contact property owners where easements are needed so that recommended construction improvements can take place. For access to the property, the City requests that easements be donated.

For more information, please visit our website <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and McAlway/Churchill**.

If you have any questions, please contact Project Manager William Harris at [wtharris@charlottenc.gov](mailto:wtharris@charlottenc.gov) or 704-353-1147.

When you clean your car, don't forget this detail:

Soap will clean your car, but it won't clean our streams.

Don't wash your car on your driveway or in the street. Soap suds flow to the nearest storm drain, then directly into the nearest creek. That could kill fish and other aquatic life.

Instead, park your car on your lawn to wash it. Or, better yet, take your car to a professional car wash where the water is cleaned. You'll have a clean car and all of us will have clean streams.

For more information visit [stormwater.charmeck.org](http://stormwater.charmeck.org)
