

McAlway/Churchill

storm drainage improvement project

your storm water fees at work

September 2009

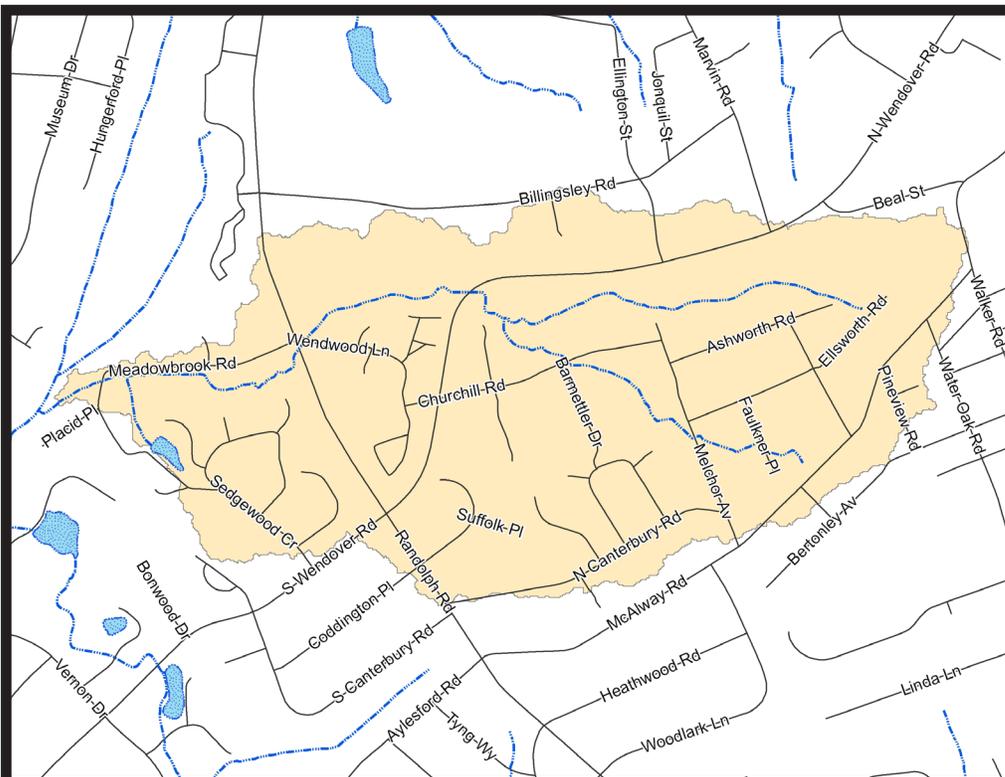

Dear Resident:

Charlotte-Mecklenburg Storm Water Services has hired engineering consultant, PB Americas Inc. (PB), to study possible improvements to the storm drainage system in the McAlway/Churchill project area. The project boundaries are roughly Meadowbrook Road and North Wendover Road to the north, McAlway Road to the east and south, and Randolph Road and Sedgewood Circle to the west.

Surveying is still being done in the project area, with the first project analysis to be of existing conditions within the McAlway/Churchill area. PB will use this information to begin the project Planning Phase.

You may also view project updates and exhibits on the web at: <http://stormwater.charmeck.org> (Click on *Storm Water Projects, Storm Water Projects* again, and then *McAlway*).

Thank you in advance for your cooperation. If you have any questions about this project, please contact Kate Labadorf, Project Manager, at 704-336-3653 or email klabadorf@charlottenc.gov.
