

Meadowridge

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

Dear Resident:

Charlotte-Mecklenburg Storm Water Services, along with consulting engineer, WK Dickson & Co., Inc., continue to work on the Meadowridge Storm Drainage Improvement Project.

Thanks to everyone's continued cooperation, all required construction easements have been acquired. While the consultant works on securing all related environmental permits, City staff is reviewing final design plans to ensure the drawings are complete.

For more information about this project, please visit our website at stormwater.charmeck.org and click on **Storm Water Projects** dropdown menu in the green bar, then **Active Projects** and **Meadowridge**.

If you have any questions, please contact Project Manager Adrian Cardenas at 704-336-4682 or acardenas@charlottenc.gov.

August 2014

HURRICANE SEASON

JUNE 1 - NOVEMBER 30, 2014

STORMY
WEATHER
AHEAD

2014 forecast:

- 11 named tropical storms
- 3 hurricanes

75% of Charlotte's flooding happens during the months of hurricane season. Whether it's heavy rain from a named storm or an unexpected cloudburst, Charlotte's flood chances increase dramatically in the summer.
