

Myrtle/Morehead

storm drainage improvement project

your storm water fees at work

February 14, 2013

Dear Resident:

Charlotte-Mecklenburg Storm Water Services held its second public meeting on January 29 at Covenant Presbyterian Church to update the neighborhood for the Myrtle/Morehead Storm Drainage Improvement Project.

Meeting highlights:

- The project team has been developing construction drawings for the selected improvements.
- Much of the existing drainage system is between homes and under buildings. Replacing the system in its current location is impractical. The proposed system is primarily in the roadway.
- The next phase includes obtaining the necessary permits, easements, and encroachment agreements needed to construct the improvements.
- For work proposed on private property, we will need

to obtain easements. City of Charlotte Real Estate staff and their consultant, Telics, have begun contacting those property owners.

- Once the construction drawings are finalized and the required easements, permits, and encroachments obtained, the project will be bid and then constructed.
- Estimated start of construction is the fall of 2014.

For more information or detailed meeting minutes, visit our website: <http://stormwater.charmeck.org>. Click on the **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Myrtle/Morehead**.

If you have any questions, please contact Project Manager Kate Labadorf at klabadorf@charlottenc.gov or 704-336-3653.
