

UNDER CONSTRUCTION

MYRTLE/MOREHEAD PHASE I
STORM DRAINAGE IMPROVEMENT PROJECT

Contractor installs dual box culverts near Baxter Street.

Construction continues on the Myrtle/Morehead Storm Drainage Improvement Project. Sanders Utility Construction Company and Bradshaw Construction completed the drainage installation under Morehead Street and replaced a section of water line. Sanders installed the drainage near Baxter Street in the Wray Ward parking lot and is moving into McDowell to continue the drainage installation across McDowell. McDowell is reduced to two lanes, one in each direction, while the drainage is installed. The lane closures will shift as Sanders progresses across McDowell. Lane closures are anticipated to last several more months.

Not related to this project, a leaking water line near the intersection of Morehead and McDowell was discovered in late May. Sanders repaired the water line for Charlotte Water.

Construction status updates will continue to be mailed about every four months. However, if you would like to receive more frequent updates via email, please send Kate Labadorf your email address.

For more information about this project, please visit our website at stormwater.charmeck.org or scan the barcode.

If you have any questions, please contact one of the project team members:

On-site Construction Inspector: Charlie Coley: 704-961-2882

Email: Charlie.Coley@campoassociates.com

Construction Supervisor: Tim Canup: 704-213-2107

Email: Timothy.Canup@campoassociates.com

Project Manager: Kate Labadorf: 704-336-3653

Email: klabadorf@charlottenc.gov

A construction inspector will be on site daily to address any questions or concerns. Please note efforts are taken to minimize disruptions.
