

# Parkwood Phase 1

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

May 21, 2013

Dear Resident or Property Owner/Manager,

Charlotte-Mecklenburg Storm Water Services held the third public meeting for the Parkwood Phase 1 Storm Drainage Improvement Project April 23 at the Hal Marshall Center. The purpose was to review project design and to receive public input.

#### Meeting highlights:

- Project Manager David Perry introduced the project team and provided a project update.
- The project will be replacing culverts under Brevard, Parkwood, Caldwell, Davidson and Belmont. The project will also be permanently closing North Alexander Street just east of the intersection with Belmont Avenue. Work will be done along 12th Street between Brevard and College, on Belmont at Davidson, 15th at Davidson, and also on 16th Street at Caldwell.
- The project should be completed by the end of 2017, with overall project construction lasting approximately two to three years.

- Real estate agents are working directly with affected property owners to acquire easements allowing construction to take place on their properties. Because the work benefits property owners in general, the City requests that easements be donated by property owners.
- A question and answer session was held.

For more information or detailed meeting minutes, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** dropdown menu in the green bar, then Active Projects and **Parkwood Phase 1**.

If you have any questions about this project, please contact Project Manager David Perry at [dperry@charlottenc.gov](mailto:dperry@charlottenc.gov) or 704-336-4202.
