

Peterson Drive

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

August 2012

Dear Resident,

Due to project team changes at US Infrastructure of Carolina, Inc. the real estate phase of the Peterson Drive Project has been temporarily placed on hold. We anticipate the project re-starting next month with easement acquisition.

The goals of this project are to reduce flooding of streets and structures, as well as reduce erosion along the stream and channel (thru stabilization) where needed.

For more information about this project, please visit our website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects and Peterson**.

If you have any questions about this project, please contact Project Manager Chad Nussman at 704-336-5676 or cnussman@charlottenc.gov.

Maintain Your Drain

Clogged storm drains can cause street flooding.

BEFORE it rains, remove trash, leaves and other debris from storm drains near your home.
