# Peterson Drive

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

December 2012

Dear Resident,

The real estate phase is underway for the Peterson Drive Storm Drainage Improvement Project. Gulf Coast, LLC will be contacting property owners in the next couple of months regarding construction and easement acquisition.

The goals of this project are to reduce flooding of streets and structures, as well as reduce erosion along the stream and channel (thru stabilization) where needed.

For more information about this project, please visit our website at **http://stormwater.charmeck.org** and click on ***Storm Water Projects*** drop down menu in the green bar, *then* ***Active Projects*** *and* ***Peterson.***

If you have any questions about this project, please contact Project Manager Chad Nussman at 704-336-5676 or cnussman@charlottenc.gov.

Charlotte-Mecklenburg STORM WATER Services

## It is that time of year when a chill fills the air and snow begins to fall.

Sometimes, instead of snow, we get ICE. Next time the weather turns bad and your sidewalk is slick, spread sand to get a grip on that slippery walk.

If bad weather strikes the area causing limbs and brush to fall, residents are encouraged to prepare debris to normal collection guidelines (limbs no longer than 5 feet in length and no wider than 4 inches in diameter). The storm debris should be taken to curbside. Do not place debris in storm drains, gutters or on creek banks.
