

# Princeton/Somerset

storm drainage improvement project

YOUR STORM WATER FEES AT WORK

February 2013

Dear Resident,

Charlotte-Mecklenburg Storm Water Services is in the design phase of the Princeton-Somerset Storm Drainage Improvement Project. HDR continues to develop the preliminary construction drawings and project specifications. Both documents are scheduled to be submitted and reviewed this spring. City staff will conduct a public meeting this summer to present the construction documents and discuss easement acquisition needs.

For more information about this project, please visit the website at <http://stormwater.charmeck.org> and click on **Storm Water Projects** drop down menu in the green bar, then **Active Projects** and **Princeton/Somerset**.

Please note this project has transferred to Project Manger Jennifer Barker. If you have any questions, please contact her at [jbarker@charlottenc.gov](mailto:jbarker@charlottenc.gov) or 704-432-0963.

**It is that time of year when a chill fills the air and snow begins to fall.**

Sometimes, instead of snow, we get ICE. Next time the weather turns bad and your sidewalk is slick, spread sand to get a grip on that slippery walk.

If bad weather strikes the area causing limbs and brush to fall, residents are encouraged to prepare debris to normal collection guidelines (limbs no longer than 5 feet in length and no wider than 4 inches in diameter). The storm debris should be taken to curbside. Do not place debris in storm drains, gutters or on creek banks.
