

September 2015

Project Status:

Charlotte-Mecklenburg Storm Water Services and HDR are finalizing the bid phase. Construction will begin when the bid phase is complete.

Next Steps:

In the next few months, expect to see vegetation clearing and utility relocation activities along the drainage system between Forest Park Drive and Freedom Park.

Charlotte, North Carolina 28202

Investing in Infrastructure

The City replaces pipes, storm drains and other structures when they deteriorate or become too small to handle increases in stormwater. Investing in infrastructure protects public safety, guards private property, improves water quality and enhances quality of life.

The Princeton/Somerset Storm Drainage Improvement Project goal is to reduce flooding of streets and structures by improving the storm drainage infrastructure within the neighborhood.
